

EMPLOYMENT

Supply Chain Specialist /**Logistics Procurement Analyst****TAIYO YUDEN Co., Ltd.****Spring 2024 – Now**

- Led freight procurement and carrier tendering by standardizing logistics quotation data and conducting cost benchmarking analysis, improving supplier competitiveness and pricing transparency; achieved monthly logistics cost savings of approximately ¥9 million (~5%).
- **Data Analytics & Digitalization:** Applied data-driven analysis to logistics costs and market trends by building databases with tools from Microsoft (Power BI, Access) together with automation support from Python Software Foundation technologies; developed dashboards, automated data collection (including logistics news intelligence), and generated actionable insights to support strategic logistics decisions.
- Designed and maintained logistics Business Continuity Plans (BCP), preparing alternative routes, carriers, and contingency transport solutions to mitigate risks from geopolitical developments, extreme weather, and natural disasters.
- Collaborated cross-functionally with procurement, operations, and logistics partners to ensure stable, cost-efficient supply chain operations.

EDUCATION

Gunma, Japan**Gunma University Graduate School****Spring 2021 – Spring 2024**

- M.A. Social Psychology (Distinction), 2024

Zhengzhou, China**Zhengzhou University of Light Industry****Fall 2015 – Summer 2019**

- B.A. Public Administration, GPA 3.59 / 4.0

PERSONAL PROJECTS

The Japan Society of Social Psychology, Program of the 64th

<Social Change in the Computer-based Simulated International Society (cSIMINSOC) game>

-- case study

- In this study, I created a virtual game-based environment to observe realistic social interactions and behavioral dynamics.
- Analyzed participant communication data (including text mining with KH Coder) to identify links between communication patterns and collective social action.
- Demonstrated how simulation-based experiments can provide insights into complex social and societal dynamics.

Skills and Hobbies

- Skills: JLPT level-N1; Master's degrees in Social Psychology; Bachelor of Management; AI trainer; Python; JavaScript; TOEIC 875; STC Associate
- Hobbies: Machine learning; Web Crawler
